Choose how you earn

PrimeXBT offers two partnership options designed for different business goals

Introducing Broker (IB)

Earn up to **70% revenue share** from every trade your clients make.

Affiliate Program (CPA)

Earn up to **\$1,500 CPA** for every qualified trader you refer.

Two ways to earn

Both reward you for referring new clients — they just pay out differently.

Introducing Broker (IB)

PrimeXBT shares part of the earnings generated by your referred clients' trading activity. Your earnings grow with how active your traders stay over time.

1. Share your partner's link
2. Clients register and trade
3. You earn **up to 70%** of their Spread / Trading Commission

Example: Your client generates **\$1,000** in spread/commission. At a **70% RevShare**, you **earn \$700** — repeating as they keep trading.

Best fit: partners focused on long-term value, retention, and active trading communities.

Affiliate Program (CPA)

A one-time fixed commission for each new, unique client you refer, once the required conditions are met. CPA payouts are based on the client's First Time Deposit (FTD).

1. Share your partner's link
2. New client registers and makes a first deposit (FTD)
3. You get a fixed payout based on their FTD + **CPA Tier**

Example: A new client deposits their **FTD and start trading**. That qualifies for a **CPA payout** — paid once.

Best fit: partners who prefer a clear one-off payout tied to qualified acquisition.
